An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr Martin on 11/30/04.

The application has been amended as follows: delete claims 1-19.

Insert therefor the following claim:

20 A nail trimmer comprising;

an automatically operated dado blade mounted in an extended baton-like device which is of a length that assures the user of a comfortable and convenient functioning;

the longer of the two baton-like device parts containing a high-speed DC motor, which, through a mechanical connection drives a dado blade in the shorter of the two parts of the baton-like device, such that the functioning edge of the dado blade rotates only down on the nail being trimmed;

the said high-speed motor DC motor being controlled by a gravity-operated switch which permits dado blade operation only in approximation of the functioning attitude of the baton-like device;

and, the shorter of the two parts of the baton-like device houses the dado blade trimmer such that the blade is mounted transversally, permitting the functioning edge of the blade to rotate down across a narrow opening in the side of said housing;

the size and shape of said narrow opening in the housing is such that only a safe exposure to the cutting edge of the dado blade is assured;

the said housing of the shorter of the two parts of the baton-like device being of a shape and size that permits a facile movement around and between the user's toes, and which supports a specially shaped removable rubber like cover which provides the toe with assured safe positioning, and when removed, an efficient clean out opening.

The following is an examiner's statement of reasons for allowance: the cited art fails to show the claimed arrangement of a rotary dado blade protruding from a slot in the wall of the device to rotate downwardly along with the end cap on the rest of the claimed organization. The claim is thus allowed..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas D. Watts whose telephone number is (703) 308-0153. The examiner can normally be reached on Mon.-Thurs..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allen Shoap can be reached on (703) 308-1082. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
